

Peel Service Coordination Resource Guide (2016)

This resource guide has emerged as an action item from RDR's member meeting where organizations emphasized the need for a compiled guide of Peel region services. This guide is not meant to be exhaustive or static, but rather ongoing and evolving. We will continue to add to it as more resource are compiled. Its aim is to provide support around coordinating services through various avenues: (1) *guides*, (2) *online portals & tools*, and (3) *reports on service systems*. If you are unable to access the links and/or have a resource to add to this collection, please connect with the RDR Project Coordinator.
